PROFESSIONAL SUMMARY

Cloud Engineer with 3+ years of hands-on experience architecting, provisioning, and maintaining scalable Azure infrastructure. Certified Azure Administrator (AZ-104) with deep expertise in Infrastructure as Code (Terraform, Bicep), cloud governance, security remediation, and virtual desktop infrastructure (AVD). Adept at optimizing cloud performance, automating admin workloads, and ensuring high availability through proactive monitoring tools.

TECHNICAL SKILLS

- **Cloud Platforms:** Azure (Core Services, AVD, AKS), AWS
 - **Infrastructure as Code (IaC):** Terraform, Bicep, Ansible
 - **Scripting & Automation:** PowerShell, Python, Azure CLI
 - **Networking & Security:** Azure Firewall, NSGs, Private Endpoints, Application Gateways
 - **Monitoring, Logging & Inventory:** Azure Log Analytics, DataDog, Azure Resource Graph, Lansweeper
 - **Secure Access & Protocols:** CrushFTP, MOVEit, SFTP, SSH, Git
 - **Core Web Tech:** React, Node.js
-

PROFESSIONAL EXPERIENCE

Associate Platform Engineer

Sapiens, Bangalore | June 2025 – Present

- Implemented and optimized FSLogix for Azure Virtual Desktop (AVD), drastically improving user profile loading and login performance for over 300 users.

- Strengthened the organization's cloud security posture by executing comprehensive vulnerability remediations and establishing automated patching cycles.
- Formulated resource runbooks and infrastructure documentation to standardize day-to-day cloud platform operations.
- Engineered a centralized Internal Platform Dashboard (React/Node.js) leveraging Azure Resource Graph to track cloud asset inventories and platform resources.
- Managed and scaled Azure Kubernetes Service (AKS) cluster workloads, resolving critical infrastructure and node performance issues.

Junior Associate Consultant

Sapiens, Bangalore | *July 2023 – May 2025*

- Provisioned, configured, and maintained critical cloud infrastructure across 15+ environments using Terraform and Bicep.
- Automated complex cloud administration workloads using Python and PowerShell scripts, cutting down manual work hours significantly.
- Consolidated platform monitoring by integrating Azure Log Analytics and DataDog, reducing MTTR (Mean Time to Resolution) during cloud incidents.
- Facilitated the migration of core file-transfer environments from MOVEit to CrushFTP to boost system reliability.

Junior Associate Consultant - Intern

Sapiens, Bangalore | *Jan 2023 – June 2023*

- Gained hands-on experience in cloud environments, script deployment, and basic Azure operations.
 - Supported monitoring alerts and platform inventory tracking.
-

EDUCATION

- **B.Tech in Computer Science and Engineering**
Amrita School of Engineering, Bengaluru (2019 - 2023)
-

CERTIFICATIONS & TARGET COURSES

- **Microsoft Certified: Azure Administrator Associate (AZ-104)**

- **Microsoft Certified: Azure Solutions Architect Expert (AZ-305)** — *In Progress*
- **HashiCorp Certified: Terraform Associate** — *In Progress*
