PROFESSIONAL SUMMARY

Data & Platform Engineer with 3+ years of experience specializing in cloud infrastructure automation, data pipeline orchestration, and secure file transfer mechanisms. Proficient in building automated data workflows using Python and PowerShell, managing containerized application environments (AKS/Docker), and provisioning scalable cloud infrastructure using Terraform and Bicep. Proven track record of optimizing data visibility through log analytics and modernizing enterprise file-transfer workflows.

TECHNICAL SKILLS

- **Data & Cloud Platforms:** Azure, AWS, Azure Resource Graph
 - **Big Data & Orchestration:** Apache Spark, Azure Data Factory, Databricks (Learning)
 - **Languages & Scripting:** Python, SQL, PowerShell, Azure CLI, Node.js, React
 - **Infrastructure & Automation:** Terraform, Bicep, Ansible
 - **CI/CD & Orchestration:** Docker, Kubernetes (AKS), Azure DevOps, Jenkins, Git
 - **Monitoring & Data Logging:** Azure Log Analytics, DataDog, WhatsUp Gold
 - **File Transfer & Secure Access:** CrushFTP, MOVEit, SFTP, SSH
-

PROFESSIONAL EXPERIENCE

Associate Platform Engineer

Sapiens, Bangalore | June 2025 – Present

- Developed Python & PowerShell automation tools to streamline data processing and reduce repetitive workloads across cross-functional teams.

- Developed an Internal Platform Dashboard using React and Node.js to centralize complex customer data dashboards and monitor platform resources in real-time.
- Containerized data dashboard applications using Docker with automated image builds, deploying them via Azure DevOps CI/CD pipelines to Azure Web Apps.
- Supported AKS deployments, ensuring scalable container orchestration and troubleshooting infrastructure bottlenecks for data-heavy workloads.
- Automated patching cycles and executed vulnerability remediation to ensure secure data environments and compliance.

Junior Associate Consultant

Sapiens, Bangalore | *July 2023 – May 2025*

- Migrated enterprise file transfer workflows from MOVEit to CrushFTP, significantly improving the reliability, security, and throughput of data transfers.
- Integrated Azure Log Analytics and DataDog across 15+ environments, enhancing data visibility and improving incident detection/resolution speeds.
- Provisioned scalable Azure data and application infrastructure using Terraform and Bicep across 15+ distinct staging and production environments.
- Enhanced CI/CD pipelines in Azure DevOps to accelerate deployment speeds and reliably deliver application updates.

Junior Associate Consultant - Intern

Sapiens, Bangalore | *Jan 2023 – June 2023*

- Assisted in developing automated scripts (Python/PowerShell) and configuring secure cloud data environments.
 - Supported ongoing platform monitoring, operations documentation, and runbook creation.
-

EDUCATION

- **B.Tech in Computer Science and Engineering**
Amrita School of Engineering, Bengaluru (2019 - 2023)
-

CERTIFICATIONS & TARGET COURSES

- **Microsoft Certified: Azure Administrator Associate (AZ-104)**

- **Microsoft Certified: Azure Data Engineer Associate (DP-203)** — *In Progress*
- **Databricks Certified Data Engineer Associate** — *In Progress*
